

Hardwood Cleaner

Properties

Effective cleaner for exotic woodwork. Removes dirt and discoloration and enhances the natural appearance of the wood. Biodegradable.

- **For exotic wood**
- **Removes dirt and discoloration**
- **Enhances the natural appearance of the wood**

Use

Cleaning of untreated and oil-treated exotic woodwork, outdoors.
Eg. wooden terraces and garden furniture before treatment with wood oil or varnish.

Application

Mop, floor scrubber or cloth.
Always wash in the longitudinal direction of the wood.
Soak the wood surface with clean water.
Use Hardwood Cleaner concentrated and apply with a brush in plenty and let it work for approx. 15 minutes.
Then scrub the surface and rinse with clean water.
In case of severe discoloration, the treatment can be repeated.
The surface must be completely dry before subsequent treatment.
Wood fibres are removed by grinding.

Expected result

Clean surface free of grease, soap, wax and dirt.

Environmental information

Clean off the paint from tools and wash them with water. Bring remains of fluent paint to the local recycling centre. Minimize your paint waste by pre-estimating how much paint you need. Keep the leftover paint for future use so you can effectively reduce the environmental impact.

Storage: Cool, frost free and tightly closed

Protection equipment: Painting: eye protection, gloves. Sanding: respiratory protection.

Technical Data

Product Type	Cleaning
Density (kgs/l)	1.09
pH	1.5
Mixture proportion	Used concentrated.
Contains	Aqua Citric Acid Alcohol ethoxylate/propoxylate Xanthan Gum
Nominal spreading rate (m ² /ltr.)	10
Min. working temp. during application and drying/curing	Min. +5°C
Cleaning of Tools etc.	Water
